

RDS eLearning Philosophy

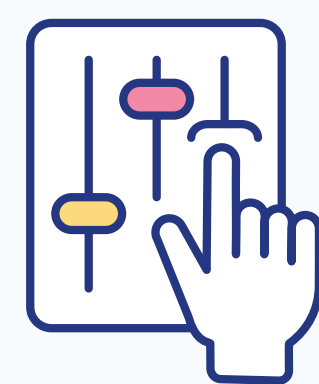

Deaf First

Our **all-Deaf team** at Resource Development Services (RDS) understands that Deaf people learn differently.

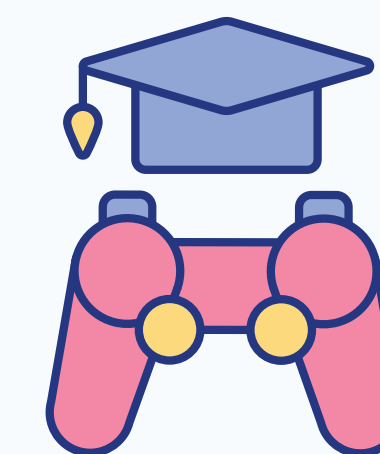

All of our eCourses are designed for Deaf people, by Deaf people!

eLearning is Interactive

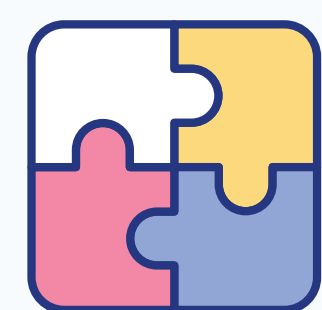

Learning shouldn't be passive. People need to interact and engage with content.

Fun AND Relevant

Learning doesn't have to be boring. In fact, we learn better when we enjoy it!

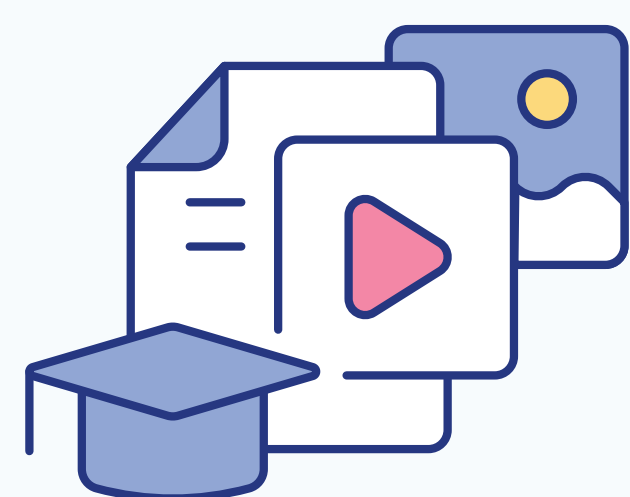

Scaffolded Learning

Having a strong foundation helps us to build knowledge and skills. We structure our eCourses to reinforce and support learning.

Bite-Sized Learning

Learning in smaller chunks helps us remember what we learn and prevents overload.

Mix-it-up!

ASL videos, English text, infographics, demo videos, animations, case scenarios, activities, games, and more!

*eLearning is more than PowerPoints and PDFs
